SUMMARY

Product leader with 7+ years building and scaling enterprise platforms, AI-enabled products, and 0→1 solutions across healthcare, financial services, government, and commerce. Pair product strategy, discovery, and roadmap ownership with hands-on fluency in LLMs, RAG, AI agents, APIs, and cloud to deliver measurable outcomes in regulated, high-stakes environments.

EXPERIENCE

Johnson & Johnson, Product Manager II · New Jersey, US

Oct 2025 – Present

Lead product strategy, roadmap, and execution across 6 enterprise AI and digital-transformation initiatives within a \$75M+ portfolio (GTS & GFS) spanning North America, LATAM, EMEA, and APAC.

- ▶ **Led product for JAIDA**, an enterprise AI platform (LLMs, RAG, NLP) that reclaimed 400+ analyst hours/month and held invoice-extraction error rates under 2% through AI guardrails.
- ▶ **Led a global SAP S/4HANA to AWS modernization** delivering \$2.4M+ in annual savings and faster Accounts Payable processing across five regions.
- ▶ **Defined vision, strategy, roadmaps, and OKRs** for enterprise platforms including IRIS, streamlining supplier onboarding through customer discovery and data-driven prioritization.

Deloitte, Product Manager (Contract) · Remote, New Jersey

Apr 2025 – Oct 2025

Led delivery of the MSDE Scholarship Portal, a statewide compliance and financial-aid platform serving 15+ public-sector agencies across the award lifecycle.

- ▶ **Directed UAT across 6 modules**, resolving 50+ critical defects and clearing all reporting-accuracy gates ahead of go-live.
- ▶ **Standardized severity-based SLA triage**, cutting resolution time on high-severity defects by more than half, and rebuilt a 1,200+ item backlog with AI-assisted clustering that removed roughly a third as duplicates.

Cygnus Compliance, Product Manager · New York

Jan 2025 – Mar 2025

Delivered a 0→1 AML/KYC compliance platform for a Tier-1 global bank's US correspondent-banking operations under a hard 8-week regulatory deadline.

- ▶ **Shipped an end-to-end compliance engine** (ISO 20022, AML screening, sanctions monitoring) and led the SWIFT MT-to-MX migration, lifting regulatory filing success into the high-90s% across \$50M+ in transaction volume.
- ▶ **Partnered with data engineering** on Python AML classification models with PII anonymization, meaningfully cutting false positives and analyst review time.

Digital iTechnology, Product Manager (Contract) · Austin, TX

Mar 2024 – Dec 2024

- ▶ **Scaled a D2C mobile platform to 75K+ installs**, improving onboarding conversion and 6-month retention through 5 structured A/B tests run at 95% confidence.

Openlogix (a K2 Company), PM Intern · Bloomfield Hills, MI

Jun 2023 – Sep 2023

- ▶ Supported a 0→1 digital-banking and robo-advisory MVP that unlocked \$2.5M in managed assets.

Oakland University, Product Advancement Ambassador · Auburn Hills, MI

May 2022 – Apr 2023

- ▶ Launched a FERPA-compliant financial-aid self-service portal, lifting self-service adoption ~45%, and integrated financial-aid, scholarship, and account-servicing systems via a Salesforce and MySQL sync.

Worldsoft Technologies, Product Manager · India

Jan 2018 – Nov 2021

- ▶ Owned KYC/onboarding, payment-gateway integrations, and REST API specs for a 30K+ customer digital-banking and payments platform, turning regulatory requirements into BRDs and user stories and improving transaction success via fraud-detection enhancements.
- ▶ Delivered merchant onboarding for e-commerce web and mobile and re-engineered POS-to-inventory integration and SQL reporting across banking and retail clients, lifting merchant revenue contribution ~18%.

FOUNDER EXPERIENCE

LOCUS AI, Founder · New York, US

May 2026 – Present

Building LOCUS AI 0→1: an MCP-native organizational memory layer that connects fragmented context across workplace tools so teams and AI agents can retrieve grounded, cited knowledge on demand.

- ▶ **Lead product 0→1** (vision, strategy, roadmap, and GTM), directing a distributed 15+ person team across engineering, AI/data, product, and design; ran 30+ customer discovery interviews to shape MVP scope and roadmap.
- ▶ **Completed MVP 01 (Aug 2026)**, including LOCI, an AI assistant that answers work questions with grounded, cited context, and launched controlled early access, building a 30+ user waitlist ahead of broader rollout; now building MVP 02.
- ▶ **Led AI product architecture** across ingestion, RAG, hybrid retrieval, MCP, prompt strategy, and evals, balancing model quality, latency, and reliability.
